

Affiliation	Country	Checkbox	Goals	Impressions about the Event	Suggestions
Nagoya University	Vietnam	Excellent	<p>I have participated in events organized by Nagoya Ryunet many times. Under the arrangements of Professor Matsuura, Itsuko, other professors, sponsors, and assistants, all events were very well organized. Participating in these events gives me the opportunity to experience and understand more about the history, culture, and development of Japan. Therefore, I decided to participate in this event.</p>	<p>I learned about the goals, facilities, and safety measures during the operations of one of the three largest gas companies in Japan. This is really interesting and useful. This knowledge is completely new to me. Hearing directly from experts working for Toho Gas and participating in the bus tour helped me better understand the operating mechanisms, facilities, and operations of Toho Gas. In the future, Tohogas is still building and will develop the hydrogen system, which is really impressive to me. I thank Professor Matsuura, Professor Itsuko, other professors, sponsors, and assistants for giving me the opportunity to participate in this event.</p>	
Nagoya University	Indonesia	Excellent	<p>The reason I participated in this event is to gain insight about Japanese companies, learn about the career paths available to students, and seek inspiration for working in Japan</p>	<p>I am grateful for the opportunity to have participated in the event. Through this experience, I gained confidence not only in speaking English but also in using the Japanese language. Additionally, all of the participating sensei and staff were very friendly and helpful. I would be very excited to participate in similar events in the future.</p>	

Nagoya University	Sri Lanka	Excellent	I need to learn about the Japanese Development Policies	I am grateful for participating in this event because I learned about the Japanese energy policy and LNG facility field experience. I saw how LNG operates in the field. The officials of Toho Gas Company explained it very well. I learned how the Toho company imports LNG and distributes it in Aichi prefecture. Also, I learned how Toho Gas Company manages the facility economically, socially, environmentally friendly, and safely. Throughout the event, everything was professionally managed. Thank you very much for selecting me for this event.	
Nagoya University	Indonesia	Excellent	I want to learn about how Japanese company bussiness in energy sector	I appreciate the Toho Gas company and Ryugakusei who has arranged this event well. Thank you for providing me an opportunity to participate in this event.	I can not suggest any improvement because this event was held in a good shape.
Nagoya University	Indonesia	Excellent	I want to get more knowledge (practically) related to Japanese companies.	The idea of showing the infrastructure of gas treatment is very interesting and insightful. I am amaze by how the representative of the company could explain about the company very easy to understand. Also not only showing the scheme, but they bring the participant to take a look on how the treatment works all over place. I am so lucky to get the opportunity to join the event. Thank you very much that I learned a lot.	I hope that the opportunity for foreign student in Nagoya University will open more widely to get to know a lot of things from Japan and get more insight. I learned a lot from this activity. Thank you in advance.

Nagoya University	Indonesia	Very Good	東邦ガスについて知りたかった	このイベントを通じて東邦ガスと日本のエネルギーについて学ばせていただきました。物凄く良かったと思います。	
Nagoya University	Ethiopia	Excellent	(1) Visiting a major energy company like Toho Gas provides firsthand exposure to the inner workings of the LNG industry. It offers valuable insights into the processes, technologies, and challenges involved in LNG production, storage, and distribution. (2) Observing LNG facilities in operation allows me to deepen my understanding of LNG technology, safety protocols, environmental considerations, and regulatory compliance. It's an educational opportunity to learn from experienced professionals in the field.	(1) The well-organized nature of the event and the warm welcome from Toho Gas employees left a strong impression of professionalism on me and other participants. The fact that the company took the time to arrange a bus tour and provide thorough explanations demonstrates their commitment to ensuring attendees have a valuable and informative experience. (2) They gave us an opportunity to ask questions and interact with knowledgeable employees which fostered a sense of engagement and involvement in the event. I Felt actively involved in the learning process which contributed to a more positive overall experience.	If the employees could speak English very well we could have understood something's even better.
Nagoya University	Bhutan	Very Good	Know more about Japan's Energy Policy	Wonderful	
Nagoya University	Indonesia	Excellent	Want to know about Japan Gas Industry and how it managed	The event was well managed, the person in charge were helpfull and kind. The explanation was clear and can be understood well.	Need more field survey and explanation on the spot.
